ABOUT

- I'm **Ayushi Thumar**, a passionate UI/UX designer driven by creativity and user-centered design. With a strong eye for detail and a deep understanding of user needs, I craft intuitive and engaging digital experiences. I approach every project with tenacity and innovation. Currently pursuing a B.Tech in Computer Engineering at R.K. University, Rajkot, I blend technical skills with design expertise to create impactful solutions. Dedicated to continuous learning and collaboration, I aim to design experiences that not only delight users but also solve real-world problems effectively.

PROJECTS

• ScanX | Ai Note Taker

(January/2025 - Ongoing)

This project is an **AI-powered** note-taking application built with **Next.js**, **React**, and **Tailwind CSS**. It features intelligent content summarization, context-aware suggestions, and seamless PDF integration. The app is responsive and optimized for a smooth user experience.

GitHub Repo: [Click Here](#)

• Loop | Messenger with Ai Chatbot

(Sep/2024 - Dec/2024)

Developed a WhatsApp-like app with real-time chat, group features with AI Chatbot using **Flutter**.
